A COSA OCCORRE LA LISTA APPLICATIVA?

La lista applicativa occorre per individuare la catena più adatta per la tua autovettura, indicando:

- La Larghezza (il primo numero presente nella misura: 255-215-235,...)
- La Spalla (il secondo numero presente nella misura: 40-45-50-55,...)
- Il Diametro in pollici (il terzo numero presente nella misura: 12-13-14-15-16,...)

E' consigliabile controllare sempre le misure prima di acquistare la catena e di provarla il prima possibile per non trovarsi, poi, in condizioni atmosferiche complicate in cui poi la catena non può essere di aiuto!

Soprattutto se si viaggia, in Italia o all'Estero, è sempre consigliabile informarsi sull'obbligo delle catene da neve nella città in cui si è diretti, così da rispettare tutte le normative vigenti.
